

CANCELATION OF MUIC SUMMER PROGRAM 2020

Dear All,

Since the COVID-19 situation has now spread out in many countries and it seems to continually increase, we regret to inform you that **MUIC Summer Program 2020 will be postponed to the next year.**

At the moment, we have no incident of COVID-19 sufferers or people at risk at our college. However, with the concerns of our executive, MUIC follows up frequently and consistently with information regarding the pandemic. Appearing in current news of the outbreak of COVID-19, we cannot predict when the situation will be resolved; therefore, **MUIC has made the difficult decision to cancel this year's Summer Program** so that the students can plan their studies ahead to avoid any problems caused from this situation in the future. Also we do not want to inform the students who are interested in our program with a short notice once it has to be cancelled.

We truly apologize for any inconvenience and hope to have you for our program next time.

Yours sincerely,

**Project Development Unit
Mahidol University International College**
