

## INTERNSHIP EXPERIENCES

# KHIN HTET HTET MAUNG

ORGANIZATION: UNESCAP  
DEPARTMENT: CKMS, LIBRARY  
POSITION: INTERN

The first day, I was really nervous and overwhelmed as my other work colleagues. But, after a few hours, I realized that I was worried for nothing as all the people in my department treated me like I belong there and treated me as if I am really their staff, not as an intern. I was assigned to do the real job which made me feel like I am actually doing something important and have the purpose to go to the office. I don't feel like I have achieved something there yet, in the work aspects, as it was my first week so far. But in terms of other aspects, I feel very accomplished that I have come out of my comfort zone and talked to people and asked questions when in doubt. That is something that I would not do back in my class. There were quite a few satisfactions of mine from working there, aside from good working environment in terms of the place and so on, the people, my work colleagues are one of the things that I enjoyed the most as they were all very kind and open-minded and treat me like I belong there, not as someone who is working there as an intern. I was assigned to the real and actual task so I feel like I have the purpose to go to the office and work there. Not only that, the working hours and days are so flexible.
